

CASTILLO DE JUMILLA MONASTRELL JOVEN

DOP Jumilla

Type of wine: Red

Grape variety: 100% Monastrell

Alcohol: 14.5% Vol.

All the benefits of our queen variety, the Monastrell grape, can be seen in this young monovarietal red whose harvest is carried out manually the first week of October. Subsequently, the must macerates in stainless steel tanks, paying special attention to the daily remontados, for an optimal extraction of color and aromas from the skins and other solid parts of the grape; then ferments in a tank at a controlled temperature. With attractive fruity aromas, it is a mature wine, with the resounding character of the Monastrell grape but well balanced, of pleasant sweetness and persistent retronasal. Superb to accompany typically Spanish spoon dishes, paellas, red meats, goat and sheep cheeses, mushrooms and all kinds of tapas.
